

Round 2 Items & Services

The Round 1 Rebid of the Competitive Bidding Program includes nine product categories. Product categories are groupings of related items that are used to treat a similar medical condition. For Round 2, we are expanding the list of items bid in the Round 1 Rebid by combining standard manual wheelchairs, standard power wheelchairs, and scooters to form a new expanded standard mobility device product category; expanding bidding for support surfaces throughout all Round 2 areas; and adding negative pressure wound therapy pumps and related supplies and accessories as an additional product category. Group 2 complex rehabilitative power wheelchairs, which were bid in the Round 1 Rebid, are not included in Round 2.

Round 2 includes the following product categories:

- Oxygen Supplies and Equipment
- Standard (Power and Manual) Wheelchairs, Scooters, and Related Accessories
- Enteral Nutrients, Equipment and Supplies
- Continuous Positive Airway Pressure (CPAP), Respiratory Assist Devices (RADs), and Related Supplies and Accessories
- Hospital Beds and Related Accessories
- Walkers and Related Accessories
- Support Surfaces (Group 2 mattresses and overlays)
- Negative Pressure Wound Therapy (NPWT) Pumps and Related Supplies and Accessories

Each product category is composed of multiple items that are identified by Healthcare Common Procedure Coding System (HCPCS) codes. Lists of the Round 2 HCPCS codes are available on the Competitive Bidding Implementation Contractor (CBIC) website at <http://www.dmecompetitivebid.com> under Product Categories in the green toolbar.

IMPORTANT NOTE: CMS will be conducting a national mail-order competition for diabetic testing supplies at the same time as the Round 2 competition. A list of the national mail-order competition HCPCS codes is available on the Competitive Bidding Implementation Contractor (CBIC) website at <http://www.dmecompetitivebid.com> under Product Categories in the green toolbar.
